

# ARYN MICHELLE

## *Embraces*

Empty spaces, dark dark places long to be filled  
painful mem'ries lonely traces long to be killed  
and I know I know I know I gotta love you  
so you can love me back

Every winter I go out walking lost in the snow  
until lately I had no problem being alone  
now I know I know I know I gotta need ya,  
so you can need me back

Embrace, embrace, embraces,  
my hands your arms our faces embrace

Like a fire you supply me, comfort and light  
all at once I am so beautiful held in your eyes  
now I know I know I know I'll always love ya,  
and you will love me back

Embrace, embrace embraces,  
my hands your arms our faces  
Embrace, embrace embraces,  
my hands your arms our faces embrace
