

ARYN MICHELLE

You Will Sustain

Growing up was easy, slowing down was hard
yesterday was simple, today I've come apart
but I can't run away from this
take down all the pictures I'm left with empty frame,
I have put my trust in those who hasten to betray,
but I can't run away from this, but I'm struggling to exist

despite the darkness rolling in, despite unbridled pain
when nothing else remains, you will sustain
when everything has changed you will sustain

kneeling at the bed post a prayer for every breath
and it may take me years to learn that life can come from death
but I won't run away from this,
you give me the hope I've missed

despite the darkness rolling in, despite unbridled pain
when nothing else remains, you will sustain
when everything has changed you will sustain

And the fairytale is nowhere to be found,
I am grounded in my need for you
every step I take is the proof

despite the darkness rolling in, despite unbridled pain
when nothing else remains, you will sustain
when everything has changed you will sustain
despite the darkness rolling in, despite unbridled pain
when nothing else remains, you will sustain
when everything has changed you will sustain
